i	<b>Preface</b>
v	<b>Foreword</b>
xi	<b>Executive Summary</b>
xvi	<b>Map of Cases on Big Earth Data for the SDGs</b>
xvii	<b>List of Cases on Big Earth Data for the SDGs</b>
Chapter 1	<b>Big Earth Data for SDGs / 1</b> <b>Data-intensive Paradigm / 2</b> <b>Big Earth Data / 3</b> <b>Big Earth Data for Implementing SDGs / 4</b>
Chapter 2	 <b>SDG 2</b> <b>Zero Hunger</b>
	<b>Background / 10</b> <b>Contributions / 11</b> <b>Case Study / 12</b> Global crop production per labor unit assessment based on Big Earth Data / 12 Assessing progress towards sustainable cropping systems: the case of China / 19 <b>Conclusions / 23</b>

Chapter 3  
**SDG 6**  
**Clean Water and Sanitation**

**Background / 28**

**Contributions / 29**

**Case Study / 31**

Monitoring the proportion of urban population using safely managed drinking water services in China / 31

Analysis of surface water quality in China / 34

Crop water productivity for the SDG assessment of agricultural water use efficiency: the case of a typical irrigation district in Morocco / 37

Mapping the extent and dynamic change of mangrove forests in Southeast Asia / 42

Surface water changes in Central Asia / 46

**Conclusions / 50**

Chapter 4  
**SDG 11**  
**Sustainable Cities and Communities**

**Background / 54**

**Contributions / 55**

**Case Study / 57**

Proportion of the population with easy access to public transportation in China / 57

Monitoring and assessing urbanization progress in the countries and regions along the Belt and Road / 61

Preliminary study and suggestions for modifying indicator SDG 11.4.1 / 68

Monitoring and analyzing fine particulate matter (PM<sub>2.5</sub>) in China / 74

Proportion of urban open public space in China / 77

**Conclusions / 81**

Chapter 5  
**SDG 13**  
**Climate Action**

**Background / 84**

**Contributions / 85**

**Case Study / 86**

Disaster monitoring and analysis of the SDG 13.1.1 indicator in countries and regions along the Belt and Road / 86

Global atmospheric CO<sub>2</sub> concentration changes in response to climate change / 92

Cognition of climate response to glaciers and Arctic sea ice / 96

**Conclusions / 100**

Chapter 6  
**SDG 14**  
**Life below Water**

**Background / 104**

**Contributions / 105**

**Case Study / 106**

Construction and application of an integrated eutrophication assessment model for typical coastal waters of China / 106

Ecosystem health assessment in Jiaozhou Bay, China / 110

**Conclusions / 115**

## Chapter 7

**SDG 15**  
**Life on Land****Background / 118****Contributions / 119****Case Study / 121**

Forest cover mapping to monitor terrestrial ecosystems in Southeast Asia / 121

Assessment of conservation priority for global national parks / 125

Study on forest protection proportion indicators / 130

Evaluating the effectiveness of the management of protected areas: an example from Qianjiangyuan National Park in China / 134

Big Earth Data for global land degradation assessment / 140

The proportion of degraded land to the total land area in Central Asia / 143

Identifying land degradation area and risk control countermeasures in Mongolia and along the China-Mongolia railway / 146

Applications of the Mountain Green Cover Index in countries and regions along the Belt and Road / 150

Evaluation of the Red List Index of threatened species in China / 155

Assessment of giant panda habitat fragmentation / 159

**Conclusions / 164**Chapter 8 | **Summary and Prospects / 167****References / 172**
