Preface

Chapter 1 Preliminary	1
1.1 L^p space	1
1.2 Sobolev spaces	2
1.3 Abstract functions valued in Banach spaces	4
1.4 Fourier transform	5
1.4.1 Fourier transform of L^1 space	5
1.4.2 Fourier transform of Schwartz function space	6
1.4.3 Fourier transform of $L^p(1 \leq p \leq 2)$ space	7
1.5 Decay rate of solutions to the initial value problem for linear heat equation	9
1.6 Calculus of inequalities	10
1.7 Some useful inequalities	11
Chapter 2 Asymptotic profile of solutions to the double dispersion equation	13
2.1 Introduction	13
2.2 Analysis of solution operator	16
2.3 Decay estimate of solutions to (2.2.1), (2.1.2)	21
2.4 Asymptotic profile of solutions to (2.2.1), (2.1.2)	25
2.5 Applications of asymptotic profile	33
2.5.1 Application I	34
2.5.2 Application II	34
2.6 Decay estimate of solutions to (2.1.1), (2.1.2)	35
Chapter 3 Asymptotic profile of solutions to the linearized double dispersion equation on the half space \mathbb{R}_+^n	39
3.1 Introduction	39

3.2	Preliminaries	41
3.3	Asymptotic profile of solutions to (3.1.7), (3.1.8)	47
3.4	Asymptotic profile of solutions to (3.1.4)-(3.1.6)	55
Chapter 4 Asymptotic profile of global solutions to the generalized double dispersion equation via the nonlinear term		57
4.1	Introduction	57
4.2	Analysis of solution operators	59
4.3	Weighted decay estimate of solutions	64
4.4	Asymptotic profile	69
Chapter 5 Pointwise estimate of global small solutions to the generalized double dispersion equation		76
5.1	Introduction	76
5.2	Analysis of solution operators	78
5.3	Global classical solutions	81
5.4	Pointwise estimate of \mathcal{G} and \mathcal{H}	86
5.4.1	Pointwise estimate for \mathcal{G}_L and \mathcal{H}_L	86
5.4.2	Pointwise estimate for \mathcal{G}_H and \mathcal{H}_H	91
5.4.3	Pointwise estimate of \mathcal{G} and \mathcal{H}	92
5.5	Pointwise estimate of global classical solutions	92
Chapter 6 Global existence and asymptotic behavior of solutions for a semi-linear wave equation		95
6.1	Introduction	95
6.2	Solution formula	97
6.3	Decay property	99
6.4	Decay estimate of solutions to (6.1.3), (6.1.2) with L^1 data	105
6.5	Global existence and asymptotic behavior with L^1 data	110
6.6	Decay of solutions to (6.1.3), (6.1.2) with L^2 data	121
6.7	Global existence and asymptotic behavior with L^2 data	124
Chapter 7 Asymptotic behavior of solutions to a class of nonlinear wave equations of sixth order with damping		133
7.1	Introduction	133
7.2	Solution operators	135
7.3	Decay rate of solutions to linear problem	138
7.4	Asymptotic profile of solutions to linear problem	143
7.5	Decay estimate of solutions to nonlinear problem	152

Chapter 8 Asymptotic profile of solutions to the generalized double dispersion equation with structural damping157

8.1 Introduction157

8.2 Mild formulation and solution operators 160

 8.2.1 Mild formulation 160

 8.2.2 Decay property of solution operators161

8.3 Global existence and time-decay 167

8.4 Asymptotic profile173

 8.4.1 The case for $\nu \in (0, 1/2)$ 173

 8.4.2 The case $\nu \in (1/2, 1)$ 180

 8.4.3 The case for $\nu = 1/2$ 189

Bibliography 196
